1 Welcome to Volunteering at Paper Kite

I am thrilled that you have chosen to volunteer with Paper Kite Children's Foundation. I started Paper Kite in 2009 after I witnessed the hardships facing the orphans in Bihar, India. Much work needs to be done to improve their current living conditions and prepare them for a prosperous future. Together we can make a positive difference in their lives.

Our volunteers have already achieved many goals including community awareness events, fundraising events and administrative duties. I hope you find the responsibilities of your particular volunteer description to be fulfilling and that your volunteer experience with us to be rewarding and positive.

Once again, welcome and thank you!

2 Overview of Paper Kite Children's Foundation

The following subsections provide a synopsis of Paper Kite's goals and how we operate. Further information can be found on our website www.paperkitefoundation.com. Alternatively, you can ask any Director or Senior Volunteer for further information.

2.1 Mission Statement

Our Paper Kite mission statement is as follows:

We are Paper Kite Children's Foundation, a non-profit charity working to ensure that basic necessities are available to the orphanages in the state of Bihar, India. Our work empowers the children to fulfill their aspirations and end the cycle of poverty.

2.2 The Importance of Our Program

Our 4 programs are based on the UN Future Fit for Children – Millennium Development goals and designed to ensure the children are healthy, happy and prepared to succeed as adults. We pay special attention to those orphans most at risk, namely girls, children with special needs, and those experiencing caste or other social stigmas.

The following text summarizes our four programs.

Proper Nutrition Malnutrition directly impedes the children's lifelong vitality and often leads to premature death. Malnutrition is concentrated in chronically poor areas such as Bihar, where 59% of children are malnourished. As orphans are part of the highest risk group, their rate of malnutrition is thought to be even higher.

What we do:

- Supply healthy food including fruit and vegetables
- Conduct caregiver education on proper nutrition
- Supply general cooking supplies

Clean Water Clean water directly relates to children's health and malnutrition. Only 30% of people in India have access to high-quality drinking water and proper sanitation. The orphans' living conditions, especially their malnutrition and lack of health care, mean that they are more at risk to contract and die from water borne diseases. Even a simply remedied case of diarrhoea can be fatal.

What we do:

- Improve the orphanages' existing water systems
- Supply clean drinking water
- Educate the caregivers and children on proper hygiene

Education

Education is a critical factor in keeping children off the streets and away from dangerous activities such as scavenging, begging, and prostitution. Only 1 of every 2 people can read and write in Bihar, the lowest literacy rate in all of India. There is a drastic difference between genders in Bihar, with 60% of males but only 33% of females being literate. Five years of schooling is required for basic literacy while orphans can grow up without ever having set foot in a school.

What we do:

- Ensure all children aged 6 years and older receive schooling
- Pay special attention to overcoming hurdles to girls attending school
- Supply the required school supplies

Health & Welfare

Every day more than 5,200 Indian children under the age of five die. In many cases their deaths are from preventable or treatable causes. Living in poverty means their standard of care is lower and they have limited, if any, access to healthcare.

Most orphanages are not equipped with proper facilities to provide daily care, such as kitchens, washrooms and bedrooms. In the winter months, the children can be found shivering and huddled together to keep warm.

What we do:

- Secure medical evaluation and treatments as required
- Rectify unsafe facility components
- Supply needed articles including bedding, clothes and toys

2.3 Founding and Governance

Paper Kite was incorporated through the British Columbia provincial government in June 2009. We also obtained charity status from the Federal Government in July 2010.

We have 9 board members tasked with ensuring Paper Kite operates effectively and responsibly. We also have a number of volunteers that help plan and complete events and fundraising. Paper Kite is a 100% volunteer run charity. Like all organizations, the functioning of our team determines the success of Paper Kite and our social benefit.

Volunteers can enhance our ability to accomplish our goals and diversifying our expertise and knowledge in the following ways:

Field Work in Bihar (February 2012)

Volunteers have the opportunity to implement our [four programs](#) in Bihar, India

2.4 Fiscal Responsibility

Our programs are entirely funded by private donors, both personal and corporate. We operate our finances knowing we are responsible to our donors, volunteers, Canadian taxpayers and orphans of Bihar. We take every effort to maximize the amount of money that directly benefits the orphans.

Accordingly, Paper Kite runs strictly on a volunteer basis with no paid employees. Whenever possible we seek to have required materials donated rather than purchased. We seek to have what operating costs we have offset by a special donor. For instance, our 2009 operating costs were paid for by our President. Additionally, all the volunteers travelling to Bihar pay for their travel and living expenses. We ask volunteers to look for sponsorship and do personal fundraisers to off-set the cost to India. This ensures that all donated money to Paper Kite goes to the children.

2.5 Goals for 2011

- Raise \$30 000 by December 2011
- Reach 50 active volunteers by December 2011
- Sponsor 2 orphanages
- Source a donor for our 2011 operating costs
- Complete at least 1 field trip to Bihar
